BACKGROUND

My parents moved our family to Brevard County in 1960, and I have called it home ever since. My husband of 40 years, Ray, and I have lived in various areas of the county over the years. We decided that Grant-Valkaria was the best place to live in Brevard and built a home here 30 years ago. We are both retired systems engineers and enjoy traveling and many outdoor activities.

I graduated with a bachelor's degree from Florida International University and attended programs in ergonomics at the University of Michigan and industrial engineering courses at the University of Central Florida.

I bring a high level of energy, enthusiasm, and commitment to all my activities. I enjoy working with people and sharing ideas and goals. I will always listen to all sides of an issue to do what is best for the Town.

“I am a team player...not a politician.”
